Part 2 – Responses and best practices

- The sanitary competence corresponds to the Regions. The central government has established a single command.
- At the local level, the city council is acting in 1. Security and compliance control of the measures of confinement, 2. Provision of social services to disadvantaged sectors, (A municipal sports facility has been opened to accommodate homeless people) 3. Injecting liquidity to companies with a plan to pay debts to suppliers.
- WE ARE WORKING ON AN AFTER-CRISIS PLAN OF ACTION WITH FISCAL, ECONOMIC AND CUTTING-OUT OF COST MEASURES
