**Looking for opportunities in danger**

Liu Yi, vice president of Tsinghua Sichuan Energy Internet Research Institute, introduced the overall situation and recruitment progress of the EXCEL acceleration camp, and announced the list of companies involved. He said that energy technology ToB companies are facing a difficult entrepreneurial environment in 2020, and the creation of EXCEL acceleration camp is to help these companies grow better. The acceleration camp will carry out work from aspects such as cross-border communication, industry research and judgment, extensive cooperation, and multi-party financing, and provide a full range of "acceleration" services for the entering companies.

▲ Vice President Liu Yi introduced the EXCEL acceleration camp

Subsequently, Zhang Tianlong, Project Director of Greater China for New Energy Nexus, issued an appointment letter to the Accelerator mentor, Zhai Yongping, Chief Energy Officer of the Asian Development Bank, Wang Haipeng, General Manager of CICC Qianhai Development Fund, and Yin Ming, founding partner of Qigao Capital, as mentor representatives. In his speech, Zhai Yongping said that all parties are now encouraging and supporting the innovation and development of technology enterprises in the field of climate energy. China has the conditions to take the lead in achieving innovation breakthroughs in technology and business models, leading the world trend, hoping that EXCEL acceleration camps can cultivate potential Of quasi-unicorn enterprises, benefit China and go global.

The 20 entry companies made their debuts and made live roadshows to showcase the latest achievements in their respective businesses, products, business models and markets. On-site participants discussed and discussed with roadshow companies on issues such as product advantages and market prospects. In the next five months, the EXCEL acceleration camp will provide these 20 companies with one-stop "acceleration" services such as direct cooperation projects, entry into priority investment lists, expansion of overseas markets, and multi-channel brand promotion.
