Global - Regional exchange call #20 Green Recovery

Wednesday 22/07/2020 – 2 sessions: 9 am CET and 6 pm CET

Introduction

While cities have been among the hardest hit by the COVID-19 pandemic, they will be essential economic engines for restarting recovery ambitions. As national governments navigate the regional complexities of responding to and recovering from COVID-19, countries and cities must jointly seize this opportunity to build back a cleaner, more resilient, sustainable and fairer world for everyone.

This call will provide an opportunity to know more about the GCoM partnerships around green recovery as well as upcoming opportunities to engage at the regional level.

To better accommodate speakers and time zones, there will be two sessions with the same content.
