

Denpasar City Climate Action Plan

04 November 2020

Achievement

1. Identification of the largest source of emissions in the preparation of mitigation measures in Denpasar
2. Determination of priority locations for the preparation of climate change adaptation programs and actions
3. The development plan for climate change mitigation and adaptation is further guideline in the development planning of Denpasar City

***Meeting amongst
government officials as
well as with IUC***

Challenge

1 Challenge

- Lack of optimal database collection, especially for external data such as energy data (PLN & Pertamina)

•

2 Challenge

Pandemic conditions so that there are adjustments in terms of meeting/training implementation

3 Challenge

- Pandemic conditions result in budget refocusing for covid-19 handling

•

4 Challenge

Building public awareness in order to sort waste from sources

5 Challenge

N/A

LESSON LEARNED

1

LESSON LEARNED

The transfer of information and technology to assist in the preparation of the Regional Action Plan.

2

LESSON LEARNED

Improving human resources competency and capacity in local government

3

LESSON LEARNED

Get technical input on sources & emissions levels as well as climate vulnerabilities and risks

4

LESSON LEARNED

A partnership and collaboration commitment in climate change mitigation and adaptation

5

LESSON LEARNED

Awareness that climate change is the responsibility of all parties including private parties & communities

NEXT ACTION

1

NEXT ACTION

- Establishment of a Climate Change Working Group at the city level that also involves external parties (PLN & Pertamina)
-

2

NEXT ACTION

Implementation of the Climate Action Plan into the Preparation of regional action plan to more easily direct the relevant agencies in the preparation of the Program Plan

3

NEXT ACTION

- Create waste reduction program: TPS 3R, optimization of waste bank performance & environmental care savings,
-

4

NEXT ACTION

Considering the mitigation and mitigation actions that lead to sustainable tourism in the framework of economic recovery after COVID 19

5

NEXT ACTION

Implementation of actions - actions by engaging communities & private parties through such as through entrepreneurship model, community based development (CBD)

TUKAD BINDU PROGRAM KALI BERSIH (CLEAN RIVER PROGRAM)

Recreation and
tourism

Education

Empowerment of
local community

Enhance economy

BEFORE
REVITALIZATION

AFTER REVITALIZATION

Thanks to the people of Tikad Bindu
for making me feel so welcome 🙏

Fantastic to see how a regeneration
project can transform a dumping ground
for rubbish to a vibrant space people can
be proud of in #Bali! #Indonesia
#WBGMeetings
